

# MIKE™ 10 System Set-Up

To insert your Company Name into the program, so that it appears at the top of all reports, follow these directions:

In the **Estimating Module** select the **Library dropdown menu**.

Then select the **Company Name / Global** menu item.

In this screen you can enter your **Company Name**, as well as change the default **Takeoff type**. **Visual Takeoff** is the default.

The **Terminal ID fields** are for use in a **Multi-User Network** environment. Please make sure you check with **Comput-Ability** support before changing this *field*.
