The PSQL v12 Guide to Installation

- Actian PSQL version 12 Database Driver Installation

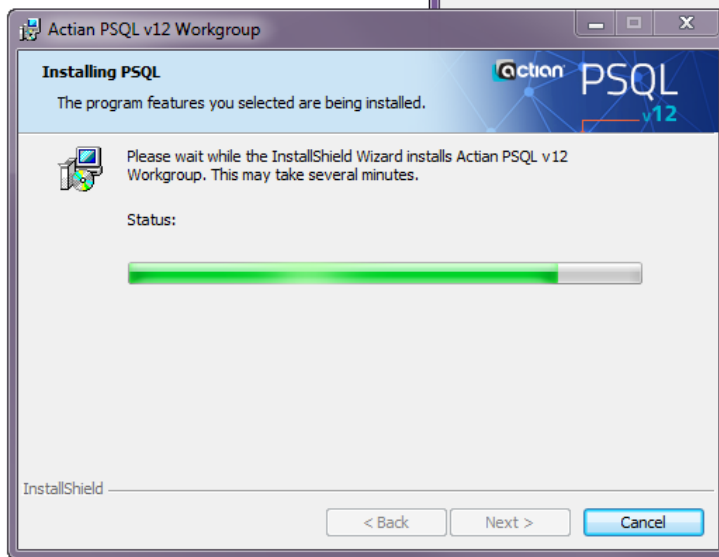

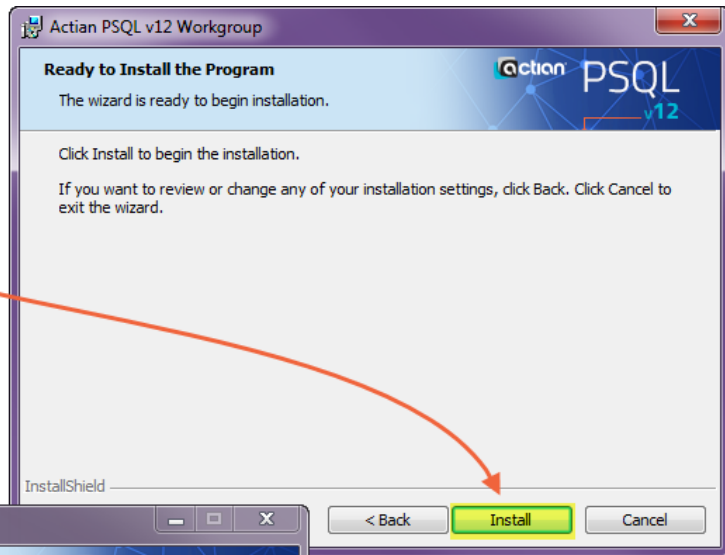

When the PSQL v.12 autorun.exe comes up, select "Install PSQL v12 Workgroup Edition."

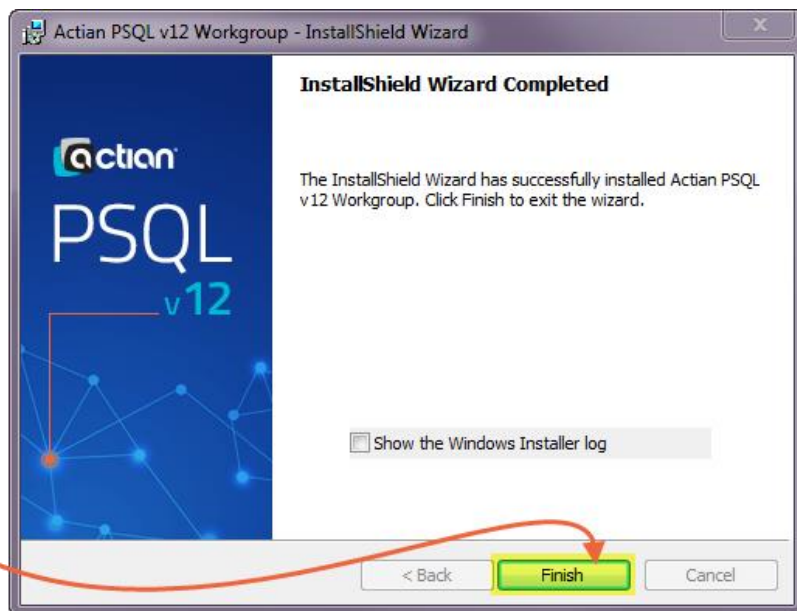

Click Install

During the Install process, you will see a status bar appear.

Just wait until the installation is done.

Once installation is done, click Finish

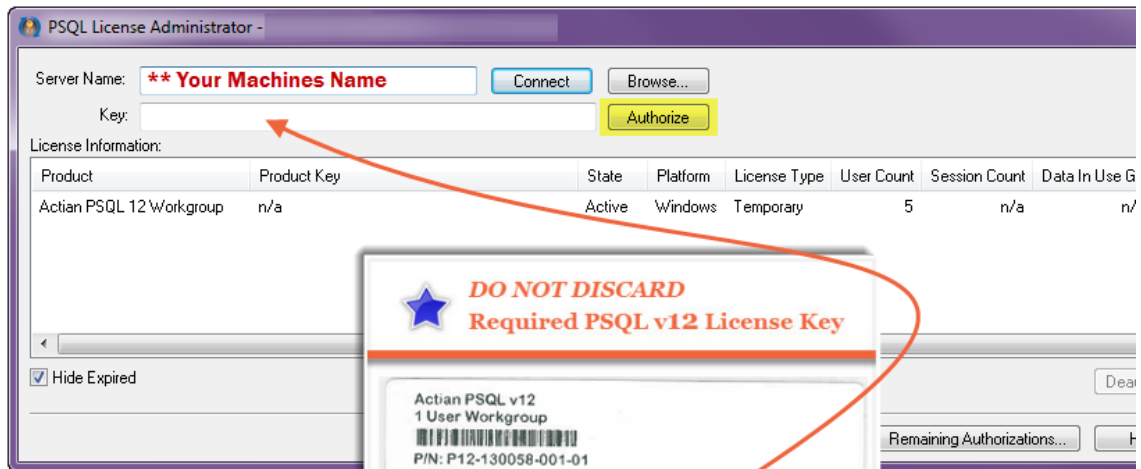

The install routine of PSQL automatically puts down a 30 day temporary license. You will now need to enter in the user's permanent license.

PSQL v.12 Authorization:

To authorize your PSQL License, go to the PSQL License Administrator.

- If you don't know where it is, just simply search your computer for "PSQL License Administrator", and the results will bring it up.

**** The name of your machine will automatically be in this location**

You will receive a laminated card with your personal PSQL v.12 License Key. Enter your License Key in the field named "Key" and then click the "Authorize" Button.

 **Do not lose this Card. It is your License and you will need it if you ever change computers.**
